

At Death's Door

Blood Poisoned After Typhoid Fever

Marvelous Cure by Hood's After All Else Failed.

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs: Twenty-five years ago I had a bilious fever, and later it turned into typhoid fever, and for five weeks I lay like one dead, but at last I pulled through and got up around. I soon discovered on my left leg just above the knee a small brown spot about as big as a three cent piece, which puffed up but did not hurt me or feel sore. I did not pay any attention to it until two years after, when it commenced to spread and have the appearance of a ring worm. It itched and burned and I commenced doctoring, but to no avail. I

Got Only Momentary Relief,

And sometimes not even that. I could not sleep nights, and on account of the itching I scratched the spot until the blood would run. In hot weather my elbows and all my joints were just the same, and what I have suffered I cannot describe with a pen. Last February I tried an herb for the blood and it broke out in the worst form of a rash all over my body. I began my scratching, and scales would fall off. The sores continued to discharge and I longed to die. Finally my husband bought a bottle of Hood's Sarsaparilla and I had not taken more than half of it before I began to change for the better. I have had four bottles,

Now I Am All Well

but two little spots on my leg. I can now sleep and eat well and work all the time. I am 54

years old, and the mother of eleven children, and think I can do as much as any one my age. My son has also taken Hood's Sarsaparilla for dyspepsia, and has been greatly benefited by it. I feel very grateful for the benefit I received from Hood's Sarsaparilla." MRS. PHEBE L. HALL, Galva, Kansas.

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

Crete Chautauqua.

All students of bible history will be interested in the announcement that Prof. Charles T. Kent, formerly of the University of Berlin, and now professor of sacred literature in the University of Chicago, will give a course of six lectures at the Crete Chautauqua upon the Hebrew prophecy and the Old Testament, as taught in the University of Chicago. Among its many specialties, this university has given no subject more careful study and consideration than that of bible history. President William R. Harper has taken great personal interest in the subject and has himself sent Prof. Kent to Crete to represent his university.

The lectures will treat especially of the

minor prophets, their work, history and relation to the greater prophets. This is a portion of the bible little studied and little understood. An opportunity for close research and study along this line will be eagerly hailed by all pastors and bible students, while the historical interest and highly poetic nature of the books considered will make the course fully as attractive to all students of literature.

The course will open with a lecture on the Old Testament literature in general, and will then take up the Prophets Amos, Harea and Micah. The literary style of each prophet and the social standards and conditions of his time will be discussed in a scholarly manner, and the subject of revelation will be handled according to the lights of modern research and science.

\$1000 in cash prizes for clever short stories and cartoon pen drawings. Send 5c. for sample of America's brightest illustrated weekly giving full particulars or \$1.00 for 6 months. The new **Arkansas Traveler**, Chicago.

BOYS everywhere are making big money selling the new **Arkansas Traveler**. Funniest illustrated weekly in America. Enormous profits and 10c. for starting outfit and particulars to Chicago.

Saved Her Life.

Mrs. C. J. WOOLDRIDGE, of Wortham, Texas, saved the life of her child by the use of **Ayer's Cherry Pectoral**.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of **Ayer's Cherry Pectoral** in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that **Ayer's Cherry Pectoral** saved her life."
